# Gym Activity Diagram

Start

Owner clicks on Register link in order to link a Customer to a Lesson

System displays all Active lessons

Owner selects a customer in a dropdown which impacts what lessons are available

Desired lesson active

System displays all lessons not at max capacity

Desired lesson not full

System hides lessons more expesnive than customer funds

Desired lesson affordable

Owner selects lesson and submits form

End - customer registered to a class

Owner leaves if lesson not there due to being inactive

Owner leaves if lesson already at max capacity

Owner leaves if desired lesson not there since it's too pricey
